

loggingontocourage.calm leads you to discover the qualities of Biblical characters who lived courageously in their times because belief in God shaped their choices. Just like the characters in this study, you will be challenged to see your opportunities for courage in simple terms of trusting God, and you will be encouraged to release your abilities to God for a purpose larger than yourself. This six lesson study incorporates both personal study and group sessions designed to foster discipleship behavior. Written by PWOC authors, it specifically addresses the unique needs of women associated with the American military. A comprehensive Leader's Guide is included.
